

Hills Quarry Products' current operations (as of 31 March 2020)

The Hills Group's priority is to keep our employees, customers and community safe whilst ensuring that we continue, where possible, to deliver products and services with minimal disruption, and comply with the latest Government advice on the Coronavirus (COVID-19) pandemic.

Hills Quarry Products is maintaining its commitment to offer the highest quality of aggregates and ready mixed concretes to our customers. In line with Government guidance, we have made arrangements to allow employees to work remotely if they are able to and put in place social distancing measures where needed.

Currently, we are able to continue to supply to our customers with limited disruption. Our intention is to continue to supply materials for as long as possible to help serve critical supply needs, with the safety and well-being of our employees, subcontractors, customers and communities at the forefront of all our decisions.

Despite the measures introduced by the UK Government on 23 March, there is still a demand for aggregate and concrete from our customers. However, in preparation for a likely decrease in orders due to the shutdown of non-essential services, some sites may temporarily close.

We are closely monitoring the impact of the COVID-19 pandemic and our Group board is meeting daily to ensure our resilient business continuity plan reflects the unfolding situation.

If you have any queries please contact us via email at info@hills-group.co.uk and in the meantime, take care and keep safe.

Peter Andrew
Group director - Quarry Products
